

... a great LIFE!, a great ICE!

Tropical Ice ... a great LIFE!, a great ICE!

Tropical Ice has been serving the Townsville region for over 40 years and has grown to be the number 1 supplier of packaged ice in the area.

Customer satisfaction is our top priority. We achieve this by constantly upgrading our manufacturing and distribution processes to ensure our customers receive a top quality product with first class service.

Tropical Ice enhances your lifestyle:

1. *In your glass:* Keeps your drinks cold, a cool thirst quenching drink on a hot day.
2. *In your esky:* Pours straight from the bag to keep your lunch and drinks cold all day long; great for the weekend party as well.
3. *In the pub:* The best beer is cooled by Tropical Ice, nothing like an ice-cold beer after a hard days work.

A High Quality Product!

Tropical Ice is pristine quality ice manufactured to rigorous quality control standards. Our manufacturing and distribution processes are HACCP accredited, Third Party audited to comply with all relevant Food Safety Standards. Tropical Ice is an accredited member of the Packaged Ice Association of Australasia (PIAA) giving you the assurance you are consuming the highest quality ice possible.

Our large modern fleet of delivery vehicles is an integral part of the quality control system. Our ice is delivered fresh and frozen to your door.

The Best Service ...Always!

One of the most important things about ice is having it when you need it. Our efficient delivery and dispatch system coupled with correctly sized customer storage means you will never run out of ice.

Our fleet of delivery trucks is fitted with satellite navigation and a computerised job dispatch system, ensuring prompt traceable delivery of our packaged ice.

Producing 100T of ice per day, the Tropical Ice manufacturing plant is the largest ice manufacturing plant in regional Queensland. We are a designated essential service in an emergency (cyclone, flood etc) and as such have priority power ensuring we can supply ice when most needed by the community.

Our Distribution Area

Our large North Queensland distribution area includes the following destinations: Cardwell, Ingham, Lucinda, Townsville, Charters Towers, Prairie, Greenvale, Giru, Home Hill, Bowen, Collinsville, Proserpine, Airlie Beach, Seaforth, Mackay, Sarina and west to Moranbah and Glenden.

Environment

Tropical Ice is committed to reducing the impact we have on the environment. We do this in a number of ways from using process wastewater for wash down purposes, satellite tracking to optimise deliveries, to employing a plastic efficient bag to package our ice. Plastic bags are a necessary evil when it comes to packaging ice. In an effort to reduce the plastic we put into the environment Tropical Ice has begun a recycling campaign, rewarding consumers for returning empty plastic bags for recycling. Our next recycling campaign is coming soon...

Cold Room Hire

*Finally an answer to your temporary cold room prayers!
Tropical Ice Cold Rooms are the best in the region – here's why:*

They are ideal for...

Parties, functions, expo's, sporting events, construction sites, mine sites and other events where things need cooling down. If you are renovating your existing cool room, they make a great temporary replacement.

Each Cold Room...

- Is available for long term or short term hire.
- Modern, large 1.8m x 2.4m, ground level walk-in rooms. No more climbing into annoying trailers.
- Internal Shelving can be provided if necessary.
- Sturdy, well presented construction, no more dilapidated trailers!
- Rooms are available in cool room or freezer configuration.

Temperature Control

Each unit is fitted with digital temperature controls, which will give you accurate and precise temperature readings. The refrigeration system has been designed to have extra cooling capacity which gives our coldrooms excellent pull down and recovery capabilities. This enables the units to easily cope with multiple door openings while keeping the temperature at a level that will prevent food from spoiling or drinks from warming. Let us take care of your temperature control while you focus on your event.

Delivery

We organise the delivery and pick up so all you have to worry about is where to put the coldroom when we arrive!
